

September 2009

Dear Fellow Aruba Ocean Club Owners,

It is our pleasure to provide you with the September Owner Update Aruba Ocean Club Update. Based upon feedback from owners we have condensed the format to a few quick-read, short '*Did You Know?*' facts about the ongoing improvements and amenities at our resort.

- Aruba Ocean Club owners have their own dedicated website where they can list a villa for sale or for rent to another owner and avoid high commissions (up to 40%) charged by brokers. Go to: www.arubaoceanclub.com.
- Owners can contact the Board of Directors with suggestions, comments and concerns by emailing: aocbod@vacationclub.com. Operational issues are promptly answered by the Ocean Club General Manager. Questions or comments involving policy or issues that are not operational in nature are answered by the Board.
- Renovated villas include a garbage disposal in all master kitchens that will be an added convenience to owners but will also reduce maintenance costs by eliminating the frequent need to clean out clogged kitchen drains.
- The number of washers and driers in the Ocean Club has doubled in recent months plus a laundry service is now available if you don't want the fuss of doing it yourself!
