

May 29, 2009

Dear Marriott's Aruba Ocean Club Owner:

We have recently received several inquiries from Aruba Ocean Club Owners voicing questions and concerns about issues at Aruba Ocean Club, including this year's maintenance fee increase, the planned villa and lobby refurbishments, and issues related to the building. You may have also recently received communications from other Aruba Ocean Club Owners expressing their opinions on these issues. Unfortunately, many of the letters and e-mails we have received contained inaccurate or incomplete information. I hope this letter serves to clarify the situation and to direct you to further information about the status of these matters and the steps that Marriott Vacation Club® International and your Aruba Ocean Club Board of Directors are taking to address these matters.

As referenced in information previously sent to you in the 2009 Annual Maintenance Fee statement as well as the Board's annual letter, Marriott Vacation Club International retained independent consultants to conduct a thorough review of building conditions and to make recommendations regarding building maintenance. Marriott Vacation Club International's leadership has been in contact with the Aruba Ocean Club Board of Directors throughout this process, and the independent consultants engaged by Marriott Vacation Club International have also provided reports of their findings to the Board. We anticipate that the Board will make these reports available to all Aruba Ocean Club Owners through the Association website: www.arubaoceanclub.com no later than the first week of June.

Furthermore, Marriott Vacation Club International recently provided a letter to the Aruba Ocean Club Board of Directors summarizing the current status of all current building matters, and a copy of this letter will also be posted on the Association website. We encourage Owners with questions regarding the information posted on the website to contact the Board of Directors or Corey Guest, the resort General Manager. Marriott Vacation Club International will continue to coordinate with the Board to provide Aruba Ocean Club Owners with information regarding these issues as it becomes available, including the status of the villa and lobby refurbishment, which is scheduled between June and November of this year.

As always, thank you for being a loyal Marriott Vacation Club Owner and for making the Aruba Ocean Club your wonderful vacation home.

Best regards,

Dirk Schavemaker

Senior Vice President, Resort Operations
Marriott Vacation Club International
